

TAKE YOUR POLICIES TO THE NEXT LEVEL

The Most Advanced Policy Management And Training Platform

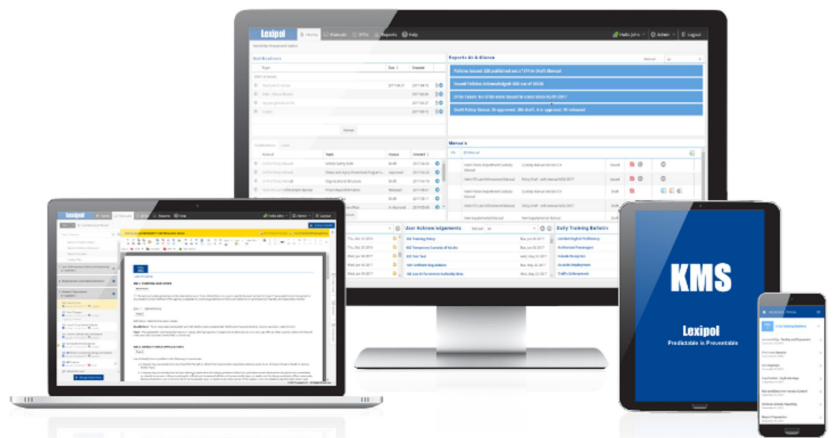

For most public safety agencies, it's difficult to keep track of policy content. Multiple printed copies, overstuffed binders, even PDFs stored electronically can all create problems when it comes to updating and circulating policies and related training.

At Lexipol, we've spent years developing the smartest, most responsive public safety policy management and training platform. Our online Knowledge Management System (KMS) lets you spend less time on policy management, and more time serving your community.

Secure Storage And Easy Access

Lexipol's Knowledge Management System provides:

- One place to store and organize all your policies and procedures
- Efficient distribution of policies, updates and training to staff
- Archival and easy retrieval of all versions of your agency's policy manual
- Easy-to-read reports to track acknowledgement and enhance strategic planning
- 24/7 access to your procedures via a web-based platform and mobile app

Experience The Benefits Of Lexipol's Knowledge Management System

Save time

Edit, review and approve policies in one place, and issue policies with the push of a button

Enhance compliance

Track policy acknowledgement and remediate personnel who haven't reviewed policies

Improve policy training

Quickly and easily deliver training bulletins that seamlessly connect with your agency's policy content

Keep policies up to date

Use the "redline" side-by-side comparison to review policy updates from Lexipol and approve or reject the changes

Increase productivity

Streamline policy management with features such as policy update categories and collaboration workflows

Keep staff informed

Set policy and training alerts via email and mobile devices, and create and issue custom training bulletins

Features Designed To Help You Work Smarter & Faster

The KMS user interface offers the ability to:

- Customize end-user preferences
- Attach files and checklists
- Search policies by keyword or voice
- Build policy cross-references
- Collaborate across work groups
- Issue policies to specific personnel groups
- Access inline policy guide sheets
- Integrate accreditation standards
- Format and customize your documents

Trusted By More Than 3,000 Public Safety Agencies In 35 States

"We had a personnel situation with an officer and within a few minutes, we were able to use the Lexipol platform to generate more than a year's worth of policy acknowledgement and training records on a particular topic. Having that level of visibility and documentation support has helped us better respond to personnel issues."

Chief Robert Parker
Watauga (TX) Police Department

"The app is great—I can punch in a search term and immediately get to the policy. And KMS gives you valuable documentation of policy acknowledgement and related training. On a chief level, that's very important."

Chief Jeffrey Pilz
Hillside (IL) Fire Department
